Ucrete® UD200

Product Information Statement for LEED® New Construction (NC) Version 3.0 Credit Documentation

Ucrete® UD200 is a water based polyurethane floor topping, matt, low emission. Can be use in conjunction with other BASF products for interior or exterior use.

BASF CC Europe AG certifies the following information for **Ucrete® UD200**:

Regional Materials

Ucrete® UD200 is manufactured in **Redditch, UK**. Raw material extraction and processing location is not available at this time.

Recycled Content

Ucrete® UD200 recycled material content is not available at this time and should be assumed **0%** for LEED purposes.

VOC Content

Ucrete® UD200 has a VOC (Volatile Organic Compound) content as follows:

- Ucrete UD200 < 2 g/l

Rapidly Renewable Content

Ucrete® UD200 has a rapidly renewable material content of 4.5%

Based upon the above information, BASF CC Europe AG certifies that **Ucrete® UD200** could contribute to the following LEED NC Credits:

EQ Credit 4.2: Low-Emitting Materials: Paints & Coatings

MR Credit 6: Materials and Resources: Rapidly Renewable Materials

MR Credit 1: Building Reuse: **Ucrete® UD200** can be used to rehabilitate an existing building and lessen the need for new facilities

Respectfully,
LEED Administrator
